Multi-purpose tool for wood burning, soldering, hot knife cutting of Styrofoam and plastic, cutting and fusing rope. 5 different tips are easily changed to provide maximum versatility. 30 Watt knife.

No. D-1550 - VersaTip Multi-Purpose Tool. Each

ELECTRIC ENGRAVER

The perfect tool for protecting your tool investment will permanently mark or engrave on metal, plastic, glass, ceramics, wood or leather. A stroke adjustment regulates the engraving depth from fine lines to deep grooves. The 115 volt tool, measuring 6" long, weighing 8 oz. includes a replaceable carbide steel point.

No. D-290 - Electric Engraver. Each

DRUM SANDER GUIDE

Our 2" long aluminum guide for making a controlled, square cut over the piano hammer's surface, can be used with any style Dremel tool. The guide has three stations, one each for light, medium and deeper cuts. The newer model Moto-Tools shown now have a flared head piece, which must be removed to be able to attach the Drum Sander Guide. We include our No. 224A Plastic Head Adapter to make the conversion.

No. 224 - Drum Sander Guide. Each

ADAPTER FOR DREMEL MOTO-TOOL

This 1" long plastic head piece adapter will screw on to the new style Moto-Tools so that our No. 224 Drum Sander Guide can be used.
